

Curriculum Vitae

Academic title, name: **DI. Martin Krill**

Date of birth: December 20th, 1970

Citizenship: Austria

Marital status: Married since 1998, two children

Schooling:

1977 - 1981 Primary school: Marianum, Vienna
1981 - 1989 High school: Albertus Magnus Gymnasium, Vienna
1989 Vienna's representative for the Federal Chemical Olympic Games in "Zell am See"
1989 Final exam passed with distinction

Academic education:

1989 - 1994 Studying **mechanical engineering – economic sector at Vienna's University of Technology.**
Passing the first mechanical engineering degree with distinction after four semesters.
Choosing the optional subject "business administration" for getting an additional economic education. Further **specialising in energy industry and environmental engineering.**

Oct. 93 - Jan. 94 Writing the thesis for the Viennese district heating company.

March 1994 Passing the second degree with distinction after nine semesters at March 3rd, graduating in civil engineering with the major in mechanical engineering for business administration at March 23rd, 1994.

April - July 1994 Receiving a scholarship from the European Union for the **University of Salford** in England. Working primarily for a study about scrap recycling, attending various classes.

10/1994 – 2/2001 Studying economics at the **Vienna's University of Economics and Business Administration** passing several classes and two major certificates while working full-time.

Working experiences:

Summer 1992 /
Spring 1993 Employed at **Sandoz** – research centre in the technical department.
Conducting researches for district heating stations and ventilation systems.

Oct. 93 - March 94 Writing the thesis for the **Viennese district heating company**.
Further employment for several months after finishing the thesis.

1.10.95 – 31.3.99 Employed at **Siemens KWU/Power Generation** in Germany,
Offenbach, department G124 (gas turbine power station as well as gas
and steam turbine plants):

Project management for the power-plant projects „Seabank“ in England, a gas and steam turbine plant, and „Peterhead“ in Scotland, modernising an old steam power station.

Further scientifically working on a system for increasing the degree of efficiency of gas and steam turbine plants. Assignment of two, in the meantime worldwide pending patents.

1.4.99 – 30.6.03 Employed at the **Austrian district heating company (ÖFWG)**, the
largest privately owned district heating company in Austria.

At first employed at the engineering department and as project manager. Settlement of power plant projects on the basis of conventional and renewable energy sources (steam generating plants, district heating networks, natural gas-, biogas- and vegetable oil-combined heat and power plants), optimising existing plants, collaboration at meetings of the “gas&heat” trade association.

Setting-up a new business field of developing wind energy projects.

May 2000 Head of the engineering department at ÖFWG.

November 2000 Authorised manager and head of the department „Sales and
Engineering“ at ÖFWG.
This position is directly responsible to the CEO.

May 2003 Resignation of the employment at ÖFWG.

Since June 2003 **Founding PROFES - Professional Energy Services GmbH.**
Chief executive officer of *PROFES* and sole shareholder.

Since September 2001 **Teaching the class energy industry at HTL Ottakring** (school for higher technical education for electrical engineering and renewable energy).

Since 2006 **Lecturer of Vienna’s University of Technology** for the international course "Renewable Energy in Central and Eastern Europe".

Since 2007 **Certified (bfi Austria, Vienna) and registered Mediator**
